

- 1.Navigate to <https://vinothqaacademy.com/mouse-event/>
- 2.Write program for Double click, Right click and Drag and drop

Code:

```
package maven;

import java.time.Duration;

import org.openqa.selenium.By;
import org.openqa.selenium.WebDriver;
import org.openqa.selenium.WebElement;
import org.openqa.selenium.chrome.ChromeDriver;
import org.openqa.selenium.interactions.Actions;
import org.openqa.selenium.support.ui.ExpectedConditions;
import org.openqa.selenium.support.ui.WebDriverWait;

public class MouseAction {

    public static void main(String[] args) {
        WebDriver driver = new ChromeDriver();
        driver.manage().timeouts().implicitlyWait(Duration.ofSeconds(10));
        driver.get("https://vinothqaacademy.com/mouse-event/");
        WebDriverWait wait = new WebDriverWait(driver, Duration.ofSeconds(10));
        WebElement element =
            wait.until(ExpectedConditions.elementToBeClickable(By.id("doubleBtn")));
        Actions actions = new Actions(driver);
        actions.moveToElement(element)
            .doubleClick()
            .perform();

        WebElement element2 =
            wait.until(ExpectedConditions.elementToBeClickable(By.id("rightBtn")));
        Actions actions2 = new Actions(driver);
        actions2.moveToElement(element2)
            .contextClick()
            .perform();

    }
}
```
